

CLK - G4

Word Clock - Super Clock Generator

The CLK-G4 is a Word-Clock and/or Super-Clock generator offering very low clock jitter (better than 50 ps). Output frequencies are switched for 44.1kHz, 48kHz, 88.2kHz and 96kHz. The four clock outputs can be switched in pairs between Word-Clock and Super-Clock.

KEY FEATURES

- Frequency selector, with LED indicators for 44.1 kHz, 48kHz, 88.2 kHz and 96 kHz.
- Four buffered clock outputs on BNC connectors with Word-Clock / Super-Clock selection on output pairs.
- 96KHz compatible
- External DC powered
