

PRODUCT OVERVIEW

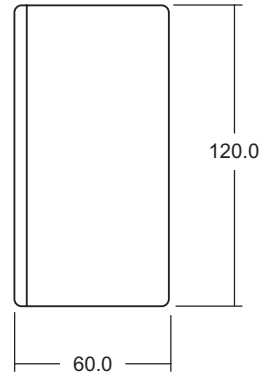

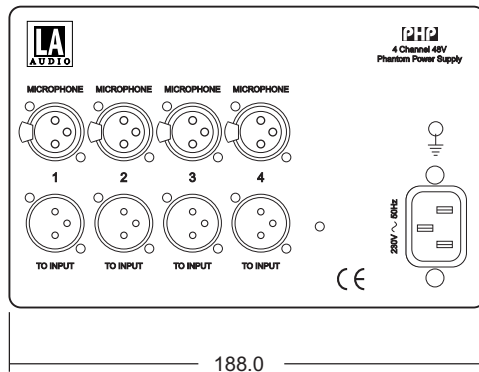

The PHP is a mains powered unit designed to supply 48 volt Phantom Power to up to four microphones. The unit is self-contained in a durable die-cast box fitted with XLR connectors and an IEC mains in-let.

The design incorporates isolation capacitors to prevent the possibility of DC on the mixer input.

DIMENSIONS

SPECIFICATIONS

ELECTRICAL

Phantom voltage:	Nominal 48 volts
Maximum current:	14mA, per channel
Power requirement:	6VA, 115/230VAC, 50/60Hz

PHYSICAL

Connections:	
Input:	XLR 3 Pin Female
Output:	XLR 3 Pin Male
Mains:	Detachable IEC

Dimensions:	188mm (7.4") W 120mm (4.72") D 60mm (2.36") H
Weight:	1.2kg, 2.63lbs
